## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1,3-5,8, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Bourquin et al.
2. The reference discloses in Fig. 4 a mechanism for displaying the phases of the moon in wrist watch including upper dial 1 with two windows 9 and lower indicator 1a, mounted concentrically with a graphical design 8 (col. 3, line 45), the two windows displaying phases of the moon in the two hemispheres (col. 3, lines 39-42). The dark and light regions of indicator 1a correspond to the colored regions 8 and the background color of indicator 1a as described at col. 3, lines 43ff.
3. Claims 2, 6, 7 and 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
